

THE MARIMÓN FARMAESTÉTICA & SPA CENTRE

The first TCuida centre in Spain which counts on a wellness area

Freixanet Saunasport, with its experience and know-how, has offered advice in the construction of the first spa facilities in a pharmacy with the TCuida seal, specifically in the Marimón Centre of Palma de Mallorca, belonging to the TCuida chain of centres, which combine personalized nutritional advice with pharmaesthetics.

Thus, the wellness concept arrives at the pharmacy and the Marimón spa becomes the first TCuida centre which integrates pharmaesthetics and spa; that is, a space dedicated to the holistic care of the body and the soul, which incorporates a spa among its services. Freixanet Saunasport has participated by installing some of its most innovating products and treatment equipment, integrated with a space aimed at health, relaxation and well-being, such as modern professional Freixanet saunas with hemlock panels. The features of these saunas are: elegance, long-duration, maximum-quality and easy cleansing, for the enjoyment of sauna with the five senses; WELLPRO® steam baths with starred sky in order to get healthy and relaxing sensations through steam; and Kambala cold-water basins to take the maximum advantage of the effect of temperature contrasts, which activate blood circulation and regenerate the skin. Besides, in Marimón spa, they use effective and active natural products of maximum quality, with scientifically proved results, guaranteed by strict technical studies whose production and control are guided by strict Pharmaceutical Security protocols.

TCuida centres are pioneers in the concept of personalized attention with the intention of helping their customers so that they feel more vital and younger, and look much healthier.

Thus they improve their life quality, delay aging and help in the prevention of illnesses. All this under the pharmaceutical advice in health aesthetics of pharmaceutical professionals and specialists in health care.

With this new project, Freixanet Saunasport, in the market since 1972 and pioneer in the introduction of the wellness concept in Spain, once more generates trends and vanguard atmospheres, unique and exclusive, which offer the customer maximum well-being and a world of sensations.
