

WELLPRO[®] STEAM SHOWERS

Ideal for home use, they offer a great quality-solution which can be adapted to any space and budget.

Freixanet Saunasport, enterprise specialized in the design and construction of wellness areas, presents WELLPRO[®] steam baths.

These elegant and complete steam baths, with a personalized design and attractive finish, are built with quality materials and may adjust to any budget. As to the coating materials, they are very diverse: from mosaic and natural stone to potter's clay, incorporating all kinds of modern and elegant details.

Besides, the WELLPRO[®] steam bath has got a steam tube integrated in cubicle, protection in the steam outlet with a stainless grid and a special hose for the cleaning of benches. Optionally, it also presents a heating system which includes a heat distributor for the surface of the seat.

The benefits of the WELLPRO[®] steam bath on behalf of general health are innumerable: moisture helps the regeneration of the skin, steam benefits the respiratory system and temperature favours the reactivation of blood circulation. Freixanet Saunasport, at the forefront of wellness technology, offers the customers this new innovating product so that not only the private user, but also wellness centres, blend the greatest pleasure with the smallest space, which allows the organism to benefit from the health effects of steam.
