

FREIXANET SUBMERGES IN THE WORLD OF THE PRIVATE POOLS

New product line of private pools, either exterior or interior. The firm offers spectacular proposals in warm and attractive environments.

Freixanet submerges in the world of the private pools, opening a new business line aimed to come up with comprehensive projects. The company experience in the professional field, where it is continuously developing projects that includes leisure pools of the maximum complexity, let it offer now proposals of pools for private spaces with total guarantee of professionalism.

These pools, either interior or exterior, count on a customised design and they are also adapted to client's need, preferences and budget. They deal with innovative proposals for home pools. The finest materials (such as marble, teka, stone or stainless steel) are combined with luxury claddings and state-of-the-art technology.

The pools can incorporate different leisure elements, such as stimulating jets at different heights, water falls, counter-current... They provide relaxing or therapeutic massages on all the body zones.

Freixanet give an special importance to pool in the home context, creating colourist and avant-garde spaces, as well as fresh and natural ambiances. Always through the high quality materials and finishings that features the company.

Freixanet Saunasport, though its Wellness Home division, incorporates the private pool category, from conception to installation and maintenance.
